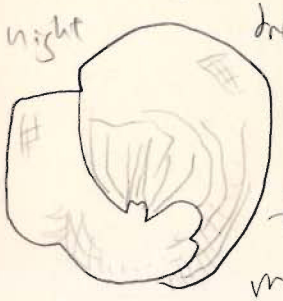
in for the Holiday. picked blue berries yesterday. 3.17 lbs for $5.50. May go pick some tomorrow w/ -- Yesterday was a party for daughter, on account of graduation. then an ice cream social @ church. All week spent drawing doors for house designed by eugene George. Got to where I dreamed about ACAD & could look & objects & break them down to 3D wire frame,



last night dreamed of a school in canyons w/ huge boulders, I was there w/ some people from staff & from botany class, & others, made up. We were dissolving chemicals in water, I spilled some on my chest & had to shower off. The school was a military school

that specialized in Botany & "rope sports"

Bike stolen today or last night both locks stacked on top of each other on my seat, but hers stolen. Bastardi. Been reading Earthsea cycle Never knew of the last 3 books. Very nice. Also reading (slowly) Bushman's Bio of J.S. Very good Had a good point about how Joseph didn't understand so many things, like the priesthood, wasn't it was until much later. At work working on job. Met Eugene George the other week He showed me a hand made plane. is working for Co. Organizing assembling units.

Emerson - Self Reliance

"~~In every work~~ In every work of genius we recognize our own rejected thoughts; the come back to us with a certain alienated majesty.

accept the place the divine providence has found for you, the society of your contemporaries, the connection of events. Great men have always done so, and confided themselves childlike to the genius of their age...

listened to Emerson Redux Podcast, Open source Emerson did "Journal work", where he would ~~then~~ study & index his own journals. Yesterday I began an index for my sketch books. That will be a life's project.
